## WHO'S MY MEMBER OF CONGRESS?

Want to contact your Member of the US House of Representatives on an issue, or to get their help dealing with Government bureaucracy? If you lived in Vienna or Mt. Vernon last September 27, 2011, you would rightly have gotten in touch with First District Representative Chellie Pingree. However, if you read the KJ or the Sentinel or listened to the radio or TV on September 29, you might have concluded that you ought to be contacting one of Second District Representative Mike Michaud's offices. You would have had grounds for doing so.

On September 28, 2011, the Maine Legislature enacted, and the Governor signed into law L.D. 1590, which re-drew Congressional District lines, most notably in Kennebec County. Mt. Vernon, Vienna and 8 other towns moved from the First to the Second District at that point—at least so far as Augusta was concerned.\*

But then again...Not So Fast. It turns out that the United States Congress has something to say about who a particular House Member's constituents are, and when those constituents change. It is true that when voters in the 10 Kennebec towns affected go to the polls in November, they will see Rep. Michaud's name on the ballot. However, when they vote for him or for his Republican opponent, they will still be in the First District—even though it's a better than even bet that both Second District nominees will want to get acquainted with folks in the "Kennebec Ten" towns well be-

## A MESSAGE FROM THE TOWN SELECTMEN

Property owners should have received their 2012 Tax Bill by now. The 2012 mil rate is .01525, up from the 2011 rate of .01416. Contributing factors to the increase include: 2012 budget appropriations voted in at town meeting were up \$16, 045 from 2011; the School District appropriation is up \$23,120 for 2012-2013; county tax is up and we are expecting our Revenue Sharing from the state to be down. This all results in a higher mil rate.

One half of your tax bill is due by June 15th; the second half is due by September 15th.

## FROM THE PLANNING BOARD

### MINUTES OF THE REGULAR MEETING OF THE VIENNA PLANNING BOARD HELD FEBRUARY 22, 2012

The meeting convened at the Town House at 7:00 PM. Regular members present were Alan Williams, Ed Lawless, Waine Whittier and Nanou Laliberte and Creston Gaither.

Minutes of the January 25 meeting were read and accepted.

Dennis & Leona Carpentier appeared regarding Kimball Pond property formerly of Glen Fitch, (tax map 3 lot 12 - K) They would like to construct a driveway and eventually a cabin on the property; the parcel may not front on the pond but lies within the shoreland zone. They were informally advised of the permitting requirements; no formal application was made, and thus no formal action was taken.

David and Betty Clark appeared regarding the proposed outsales from their Town House Road property (tax map 2 lot 5) as discussed at the January meeting. They said that the deeds to all of the contiguous parcels comprising this property indicate identical ownership. The 5-year single family dwelling exception to the subdivision review requirement as found in M.R.S.A. Title 30-A §4401.4 (1) was outlined for them.

They were accordingly advised that municipal subdivision review will likely not be required for the proposed outsales.

The meeting adjourned at 7:30 PM

### MINUTES OF THE REGULAR MEETING OF THE VIENNA PLANNING BOARD HELD APRIL 25, 2012

At 6:15 PM the Board conducted a site visit at the Ljunggren property in Vienna village (tax map 10 lot 81), where regular members Lionel Laliberte and Waine Whittier and Creston Gaither met with Matt Dunn and his contractor, Bruce Dunn; Matt would like to have a second story bathroom built over the existing bathroom, and to have a dormer built on the higher existing roof; no change is proposed to the existing ell or the easterly end of the structure. No increase to the existing floor area is proposed.

Matt's mailing address is: P.O. Box 148, Mt Vernon, ME 04352.

The regular meeting convened at the Town House at 7:00 PM. Other regular members present were Alan Williams and Ed Lawless.

Minutes of the March 28 meeting were read and accepted.

Jim and Kathy Meader appeared to

discuss the existing camp on their Flying Pond parcel (tax map 10 lot 104 - F). The existing camp is within 12 or 17 feet of the pond. The Shoreland Zoning Ordinance (SZO) rules for the expansion of non-conforming structures (Sect. 12.C, (1).) were reviewed. Jim presented a sketch of the existing structure. It appears that if the existing sheds were removed about 500+ sf could be added to the existing structure. It was agreed that a site visit would be required for the Board to determine with certainty what will be permissible. Thus no formal action was taken.

Creston will check on the structure's flood hazard zone status. Jim says he has a plumbing permit for the existing septic system.

Matt Dunn's proposal was discussed. As the structure lies within the Shoreland Zone, the Board made findings of fact as per Section 16.D. of the SZO, found this proposal conforming, and voted to authorize the issuance of a SZO permit for the proposed work upon receipt of a valid plumbing permit.

Creston noted that he expects to miss the Board's May 23 meeting.

The meeting adjourned at 7:45 PM

Creston Gaither, Secretary

## NEWSLETTER TITLE

## FROM THE VIENNA HEALTH OFFICER: PREVENTING SUNBURN AND CANCER THIS SUMMER

By far the best way to avoid disease is to prevent its ever happening. This type of prevention is commonly called “primary prevention,” in contrast to “secondary prevention,” where one detects disease not yet apparent, and reverses it, like finding a skin cancer and curing it by cutting it out. The latter is typically much more costly in terms of money and pain, than is prevention before the problem ever appears in the first place. Preventing skin injury by avoiding sunburn and tanning booth damage is an effective primary prevention of skin cancers.

I had reddish hair as a youngster and recall several times I was sunburned so badly that I had painful blisters and peeling. No sunblock in those days; and why didn't my parents make me wear a t-shirt? I'm sure most readers have had similar experiences. Undoubtedly those burns and others caused a small skin horn to develop on my nose 10 years ago; on surgical removal, it proved to be a squamous cell cancer. Tough to watch it being cut off the bridge of one's nose, but no recurrence there or new ones elsewhere so far.

Sunburn can markedly increase the risk of developing skin cancers, with the risk increasing each year for decades. The worse and more frequent the burns, the greater the risks. Basal cell cancers are the most commonly associated with sun exposure (over 500 000 cases/yr. in the US), squamous cell cancers the next most common (over 100 000/yr.), and the very dangerous malignant melanomas slightly less frequent (75 000/yr.).

Sun light contains both ultra violet A (UVA) waves (shorter wave lengths than visible light waves) and even shorter length UVB waves.

UVB causes sunburn to appear over the 48 hours after exposure and ultimately causes tanning (increased skin pigment), providing some future protection from further burns. Therefore tanning booths use predominantly UVB light. UVB light causes direct and greater damage to the skin connective tissue and the cellular genetic material (DNA). This DNA damage, over time, can cause transformations into skin cancers.

UVA light does cause a temporary tan without increasing total skin pigment and was previously thought to do little harm. But recent research has shown that it too causes connective tissue injury and indirect DNA damage by creating toxic chemical ions (free radicals). Hence, it also increases skin cancer risks, especially those for melanoma.

Both UVA and UVB exposure also cause damage to the skin collagen and elastic tissue over time, hence markedly increasing wrinkling to the point that heavily sun-exposed people can look decades older than their real age.

UVB light can be blocked by sunscreens. But UVA damage is not prevented by our standard sunscreens, although some are now including and rating their UVA blocking effect, probably unreliably. Opaque blockage works best, like clothing (if you can't see through it, it's good) and that white zinc or titanium oxide cream city folks wear on their noses.

So what does all this mean? Simple:

- don't get sunburned; you'll still tan even with sunblock.
- use sunblock with a sun protection factor (SPF) rating of at least 15 and up to 50-70 in intense summer sun, especially on heavily exposed areas like backs of ears and hands, nose, lips, and temples. Apply it several times (at least 2) a day
- use protection against UVA as well, as much as you can; wide brimmed hats, clothing, and/or zinc oxide
- use protection for sure during the most crucial times of day, between 9 am and 3 pm, when the sun's rays are most intense
- children, young adults, and fair complected (especially red-haired) individuals need the most protection
- don't use tanning booths
- be vigilant for sun-exposed area sores that don't heal, or bleed, or grow over the course of months. Any black or blue color in them is especially worrisome for melanoma, from which one can die. The other types just need whacking off before they get larger and more troublesome.

## CONGRESS (FROM PAGE 1)

fore the election. Even so, it will not be until the new Congress convenes in January 2013 that the transition to the Second District will be completed.

Mr. Michaud faces a formidable challenge to his reelection by the Republican candidate, former Maine Senate President Kevin Raye. Like all effective Members of Congress, our Representative has Constituent Service as a high priority. That is likely to be even more the case in the months ahead. Should Mr. Raye win in November, it is a safe bet that he will be equally concerned for constituent interests.

There are a couple of additional things to think about. First, our two House Members work closely together on helping constituents. The world will not end if you go to the wrong office. On some subjects, the one you go to may ask the other office to handle the matter. Mike Michaud, for example, sits on the House Veterans Affairs Committee, and handles veterans' issues Statewide. Whichever office you go to, the job will get done.

How do you know where to go? Right now, if

you wish to reach Representative Michaud, his closest office is at 108 Main Street, Waterville 04901; phone 873-5713. But in January, Waterville goes to the First District. There will still be Second District offices in Bangor and Lewiston-Auburn, though smaller towns like ours will most immediately be served by a kind of mobile office which moves from place to place. More on that when the time comes.

For more contact and other information for any of our Members of Congress, go to either [www.house.gov](http://www.house.gov) or, for the Senators, [www.senate.gov](http://www.senate.gov) and follow the prompts, by name or our State. It's easier than it may look at the moment.

The other eight are: Albion, Belgrade, Gardiner, Monmouth, Randolph, Rome, Sidney and West Gardiner.

## MOUNT VERNON COMMUNITY PARTNERSHIP CORP. (CPC)

### *THE BUSINESS DIRECTORY IS BEING UPDATED*

The Community Partnership is updating the Mount Vernon and Vienna **BUSINESS DIRECTORY**, which we published in 2008. More than 100 businesses were listed in that directory, and we want to be sure every business in our two towns is listed in the new directory. If you have a business in either town, please give us the following information:

The category of your business (for instance, ARTIST, AUTOMOTIVE REPAIR, LANDSCAPING, ETC.).

The name of your business.

A brief description describing your business with any special information (such as hours open, season open, etc.).

Your name and town location.

Your phone number, email address, and web address (if you have either).

Give the information to Val Hoff by calling her at 293-3132 or emailing her at:

[mainebonecarving@yahoo.com](mailto:mainebonecarving@yahoo.com).

We hope to publish the directory in the fall.

*WE CAN'T WAIT TO FIND OUT ABOUT ALL THE GREAT BUSINESSES IN

dumpster for regular trash pick-up. Vienna Shores Rd. is a private road. A suggestion was made to move the dumpster out to the public road. No action will be taken at this time.

2. Reviewed and signed Warrant #9.
3. Discussed bids for mowing the town cemetery.

May 22, 2012

Present: Dodi Thompson, Chris Smith, Laura Church, Linwood Meader Jr., Peg Lang, Jim Wachter, Luke Olson, Mike Rogers

1. Six sign posts will be delivered next week for new road signs.
2. Peg Lang raised the following concerns: Too much sand was used on the Cumner Rd., a chain has been placed on the gate at the old town dump, and concerns about mowing the town cemetery across from the United Methodist Church on Tower Rd.
3. Linwood reported he had met with Dan Goucher re: culverts and ditches on Davis Rd. He has a meeting with Pike Industries for estimates for work on Kilr Beck and Tower Roads.
4. Jim Wachter requested information regarding the assessment of his home and was provided with a copy of his tax card and abatement application.
5. Luke Olson discussed his current mowing contract which includes Town House, Community Room/ Fire Station, Town Park, and Seavey Corner Cemetery. He signed his contract.
6. Bids were opened for mowing the Town Cemetery across from the United Methodist Church on the Tower Road. Darrel Varney bid \$2575.00 for the season. Luke Olson bid \$100.00 per mowing with a season cap of \$2000.00. The contract was awarded to Luke Olson.
7. Mike Rogers from the Maine Revenue Service did the sales ratio analysis.
8. Reviewed and distributed mail.

**GREETINGS FROM THE VIENNA POST OFFICE!**

The second week-end of May is the Rural Carrier's Annual Food Drive. The Vienna Post Office collected over 20 lbs. of food on May 12th. The weight is reported to the Carrier's Food Drive, and the food is donated to the Mt. Vernon Food Bank. Thank you to all who contributed!

On May 9th the Postal Service announced a proposal for a new strategy regarding Post Offices in rural areas. 3700 Post offices nationwide were on a list for possible closure, 34 in Maine. Now the Postal Service proposes to keep all Post Offices open, but 13,000 of the smallest Post Offices would have their window hours modified to match customer use. 244 Post Offices in Maine will be affected.

The Mt. Vernon Post Office is on the list to go down to 6 hours a day, which means it would have a Part-time Career Postmaster. The proposed plan for the Vienna Post Office is 4 hours/day, and it sounds like 4 hr./day Post Offices would not have their own Postmaster.

The Postal Service is expected to file an advisory opinion with the PRC (Postal Regulatory Commission) at the end of May. No changes will be made until at least 90 days after the Postal Service files a request for an Advisory Opinion with the PRC. Community members will be given the opportunity to provide input through surveys and at community meetings. The meetings will be held primarily to get input on what hours work best for the Retail Lobby to be open. In the coming months the Postal Service will provide notice regarding the time and place of these meetings. Implementation would take place over the next two years.

Feel free to come in to the Vienna Post Office to discuss any of this with me.

**The 30 Mile River Watershed Association is seeking volunteer Courtesy Boat Inspectors and Youth Conservation Corps projects for the summer 2012 season.**

Courtesy Boat Inspector (CBI) volunteers work at boat launches throughout the watershed, talking with boaters and inspecting their watercraft as they launch and remove their boats. CBIs are the first line of defense for keeping invasive aquatic plants like variable milfoil and hydrilla out of our lakes. All plants found on boats, trailers and gear are removed, and suspicious plants are sent in for identification. We are looking for volunteers for Parker Pond, Flying Pond, and Kimball Pond. The threat is greater than ever as the invasives are more abundant and not far away in the Belgrade Lakes. We hope you'll join us to protect our lakes.

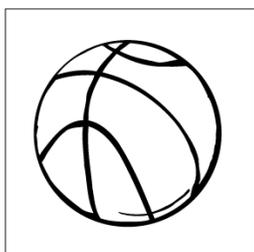

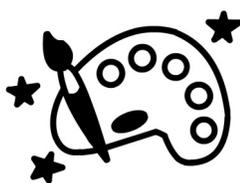

The Youth Conservation Corps (YCC) works with homeowners to decrease erosion and filter stormwater carrying phosphorus on their property. YCC provides free technical assistance and labor, while private landowners or towns pay only for materials.

You may want to take advantage of the YCC if...

- you have more grass than other vegetation in your yard.
- your shoreline is eroding (you notice loss of soil, undercutting, exposed roots).
- your driveway or path goes downhill towards the lake.
- you have soil displacement under roof drip lines.
- you have spots of bare soil in your yard.
- you want to know what you can do to improve water quality.

For more information on how to become a CBI volunteer, to arrange a YCC site visit, or to sign up for our newsletter, visit our website at [www.30mileriver.org](http://www.30mileriver.org) or contact [info@30mileriver.org](mailto:info@30mileriver.org).

## News From Vienna Historical Society

Where Have All the  
Soldiers Gone  
Civil War Veterans  
of  
Vienna and Mount Vernon, Maine

FIRST:

We have published a new book:

*Men who served in the Civil War and were born in, lived in, or buried in Vienna or Mount Vernon are honored in this book. A brief genealogical sketch of each is given, along with his service record. As much as possible, their post-war lives were traced and recorded, and photographs were included. Paperback, 86 pages, 8 1/2" x 11". \$15.00 each.*

# Thank You!!

To everyone who attended or donated to the fund for the Benefit Dance Jan. 21!!! What a joyous and moving (and successful) event!

The  
Fabulous  
Burnin'  
Band!!

As many of my Farmington friends arrived I greeted them with "Welcome to Vienna! The warmth and generosity of our magnificent community were palpable even in the West

The  
Ice  
Out Band!!!

Farmington Grange hall!!

No doubt thanks largely to the spirit of this event, I continue to make good progress toward a full recovery !! Many thanks to all, especially these two cool bands !!
