REMINDER

Next Bulky Pick-up Day is on Monday
July 15, 2013.

MINUTES FROM THE SELECTMEN

Selectmen's Meetings

March 12, 2013

- Reviewed and distributed mail.
- Welcomed Jeff Rackliff as newly elected Third Selectmen.
- Elected Dodi Thompson as Chairman of the Board of Selectmen.
- Discussed creating a grant writing committee. Michael Montgomery has offered to chair.
- General discussion and briefing with Jeff on duties of the Selectmen.

March 19, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff

- Read and approved minutes from previous meeting. Opened and distributed mail.
- Warrant #6 was reviewed and signed.

SELECTMEN'S MINUTES

- Received a letter from Robert Weingarten in regards to the proposed wind power ordinance. Adjourned meeting due to power outage.

March 26, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff, Marti Gross, Annie Tibbetts

- Opened and distributed mail. Read and approved minutes from previous meeting.
- Chris Smith reported on recent road damage due to storms. Wash outs on Besse Road, Stream Road and Mountain Road made them impassable. There was also damage to Mason Road. 50% percent of the road maintenance budget was used repairing all the damage.
- All contractors doing work for the Town of Vienna must file a copy of either liability insurance or Workers Comp.
- Voted to apply to TD Bank for a Tax Anticipation Note. We would like to have the TAN in place by early April.
- Signed two quit claim deeds to clear up old liens. Annie Tibbetts notarized. Selectmen signed paperwork for new tax collector.

April 2, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff, Brian Church, Marti Gross, Donald Tibbetts, Colleen Meader.

- Opened and distributed mail. Read and approved minutes from previous meeting.
- Reviewed and signed Warrant #7.
- Brian discussed repairs made to the Fire Truck.
- Chris gave a report on the roads. Road Commissioner Dan Goucher is currently out of town, and Jr. Meader is covering for him in his absence.
- Tax Anticipation Note will be for \$100,000 at 3.99% interest to be paid in full on or before December 31, 2013. The money will be in the town account by Thursday, April 4th.
- Signed the engagement letter from Stephen Hopkins, town auditor.
- Reorganized old septic system records while looking for a plan requested by Fred Webber. Adjourned meeting at 9:11 PM.

April 9, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff, Brian Church, David and Diane Briggs.

- Opened and distributed mail. Read and approved minutes from previous meeting
- Discussed the abatement on the Briggs property, resulting from combining two contiguous lots and reassessing per John Sexton. There was also a discussion on the damage done to Klir Beck road during a logging operation over the winter.
- Tax maps have been updated by Creston Gaither dba York Hill Surveying. He has submitted a list of changes per tax transfers from April 1, 2012 to April 1, 2013. Property cards will be updated by Dodi and John Sexton, who is also working on changes due to permits for new construction.
- Other discussions: Roads, 30 Mile Watershed, rate of fees charged by the town.

Meeting adjourned at 8:15.

April 16, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff, Marti Gross

- Reviewed and signed Warrant #8.
 - Opened and distributed mail.
 - Road report: Dan Goucher has bulldozed the upper end of the Davis Road and Klir Beck. He also flushed the culvert near Parker Pond, which continues to have problems caused by beavers. The damaged pavement was repaired on Klir Beck Road.
 - The selectmen put in writing the rate of pay offered to contractors who work on town roads. "The Town of Vienna agrees to pay road contractors the following: The labor reimbursement and drive rate (as set by the Department of Transportation in any given year) plus up to an additional 25%.
 - Read and approved minutes from the previous meeting.
 - Chris will order flags for the graves of veterans in town cemeteries.
- Adjourned at 7:40.

April 23, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff, Josh Markham

- Opened and distributed mail.
- Road report: Nothing new at this time. Still dealing with the "beaver situation". We may need to have them trapped and relocated, which can be a costly proposition. Chris has spoken with the Maine State biologist and was given contact information in regards to having them trapped.
- Discussed the mailing of 30 notices for liens of 2012 taxes. Discussed the need for sending a pre letter to those who owed small amounts – under \$20 or so.
- Read and approved minutes from previous meeting.
- Updated tax maps are available at viennamaine.org as well as yorkhillssurveying.com. This allows residents and professionals to access town maps 24/7.
- Josh Markham inquired about the gate across near Carhill and Berry Hill Road. After looking at the maps of Vienna, Markham was referred to the town of Mt. Vernon, as to whether the road is discontinued or still open (since it originates in Mt. Vernon and that town would have control over closing the road).
- A drilling rig was on the (posted) Besse Road on April 23. The cell phone tower company ordered test holes to be drilled on the property of the proposed cell tower which may be going in from the Besse Road. The drilling company contacted Dan Goucher, Road Commissioner. (The town is able to give permission for overweight vehicles to operate on posted roads).

Meeting adjourned at 9:40 PM.

May 7, 2013

Present: Dodi Thompson, Chris Smith, Jeffrey Rackliff, Marti Gross, Brian Church, David and Diane Briggs, Dan Goucher, Annie Tibbetts.

- Opened and distributed mail.

- The Briggs inquired about their abatement, as they were going out of town and wanted to settle their taxes. They were assured it would be taken care of within the week.
- Warrant #9 was reviewed and signed.
- Brian Church, Fire Chief gave a report on the Fire Department. They will be having three Fire Fighter 1-2 graduates soon.
- The proposed RSU#9 budget for Vienna (2013-2014) is \$554,620. That is an increase of 73,496 from the last budget.
- Dan Goucher advised the selectmen that he has pulled the posted road signs on all town roads except for Besse, Stream and Anderson Roads. The Kimball Pond Road has been graded and potholes have been filled.
- Opened and distributed mail.
- Discussion with Tax Collector on whether we are obligated to send two tax bills if a property has more than one owner with different addresses. Unless specifically requested, the tax bill will go to the first name on the property.
- Signed Insurance Bonding paperwork on Annie.
- 2013 tax bill will be going out by the end of May. The first half will be due on or before the 15th of June, as voted on at March town meeting.
- Tuesday, June 11th has been set for a work session for selectmen to organize the town office. No other business will be done at that meeting, which will begin at 6:00 PM
Meeting adjourned at 8:42 PM.

PLANNING BOARD NEWS

MINUTES OF THE REGULAR MEETING OF THE VIENNA PLANNING BOARD

MARCH 27, 2013

The meeting convened at 7:00 PM at the Town House; regular members present were Waine Whittier, Alan Williams, Ed Lawless, and Creston Gaither. Minutes of the Jan. 23 meeting were read and accepted. Waine has not received any new information regarding the cell tower permit application discussed on Nov. 28.

Muffy Floyd's e-mail of Feb. 13 was reviewed and the board discussed her concern that a cell tower on Besse Road would obstruct or otherwise diminish the view of mountains Abraham, Sugarloaf and Bigelow from Trask Road.

No other business was conducted.
The meeting adjourned at 7:45 PM.

Creston Gaither, secretary

MINUTES OF THE REGULAR MEETING OF THE VIENNA PLANNING BOARD HELD

APRIL 24, 2013

The meeting convened at 7:00 PM at the Town House; regular members present were Waine Whittier, Alan Williams, Ed Lawless, Nanou Laliberte and Creston Gaither. Minutes of the March 27 meeting were read and accepted. Waine has not received any new information regarding the cell tower permit application discussed on Nov. 28.

Richard Stake appeared with Susan Weeks, his daughter, regarding the former Glen Fitch property, depicted on tax map 3 as lot 71 and now owned in part by Leona Carpentier. Mr. Stake noted the questions raised by Mrs. Carpentier at the Board's October 24 meeting concerning Mr. Stake's intent to drill a well on his parcel, which abuts Mrs. Carpentier's parcel. Waine advised him that he has spoken to Mrs. Carpentier on the

PLANNING BOARD NEWS CONTINUED

phone a couple of times. Mr. Stake said that Mrs. Carpentier claims she owns the road. He says he has deeded easement rights to use it. Ms. Weeks says Goodwin Well Drilling has visited the site and suggested some grading and tree removal etc. in order to get a well in and told her that the outhouse on the Carpentier parcel could affect the permissibility of the well and that the State must approve the well. Mr. Stake says that in November the State approved the well as a “specialty well.” It is about 100 feet from the pond. Waine noted that excavation for the water line will most likely require a Shoreland Zoning Ordinance (SZO) permit from the Planning Board and that silt produced by drilling may require a silt fence and a related SZO permit.

The SZO was briefly reviewed; on page 9 it indicates that removal of less than 10 cy of material in the LR zone does not require a Planning Board permit but is allowed. Ms. Weeks assured the Board that a silt fence will be installed by the well driller.

Tim Seamons appeared – he owns Town Line Auto on Town House Road where he buys and sells automobiles. The State has advised him that he needs a “Recycler License Zoning Renewal” form signed; Waine signed it and Town Clerk Annie Tibbetts came to the meeting and notarized his signature.

Alan presented an application to build a porch on the Landis property on Ithiel Gordon Road (map 11 lot 30 – P). The Board is familiar with the site, which it has visited in the past and therefore waived the usual site visit. The Board made findings of fact as per Section 16.D. of the SZO, found this proposal conforming, and voted to authorize Creston to issue a SZO permit for this work.

Alan also presented an application regarding the I’Anson property on Klir Beck Rd.(map 11 lot 48 – F). Mr. I’Anson has not raised the roof on the garage as previously proposed. He now wants to build a 12’ x 22’ addition on the end of the garage. It is not clear what type of floor will be used, so erosion control measures will most likely be required. The Board is familiar with the site, which it has visited in the past and therefore waived the usual site visit. The Board made findings of fact as per Section 16.D. of the SZO, found this proposal conforming, and voted to authorize Creston to issue a SZO permit for this work.

Waine presented a proposal to expand by 280 sf the deck on the structure on his Parker Pond parcel, (**tax map 11 lot 23-P**) He recused himself and Alan was elected Acting Chairman for this deliberation. Holes for the posts will be hand-dug. The Board is familiar with the site, which it has visited in the past and therefore waived the usual site visit. The Board made findings of fact as per Section 16.D. of the Shoreland Zoning Ordinance (SZO), found this proposal conforming, and voted to authorize Creston to issue a SZO permit for this work.

CEO John Archard’s e-mail of 4/23/13 concerning 13 Herrin Woods Rd. was briefly discussed. It was agreed that as there is no application before the Board concerning this site, no formal action was necessary and none was taken.

The Harrises’ request that their 2010 SZO permit regarding their Stream Road parcel, (map 5-A, lot 32-4), be renewed; as no changes are proposed and the Board visited the site in 2010, the usual site visit was waived, and the Board voted to authorize Creston to issue a SZO permit for this work.

The meeting adjourned at 8:00 PM.
Creston Gaither, secretary

EDITOR'S NOTES

Important Notice

Vienna Record Goes Online

In an effort to save money for the Town of Vienna and our residents the *Vienna Record* is now offered online.

It is our goal to send the online version of the *Record* to each and every person in Vienna who has internet access. Please help us create a responsible, paperless environment in our town. Ask for the *Record* online! Send your email address to: viennarecord@gmail.com

If you do not have internet access send a post card, requesting a paper copy of the record to:

Marianne Archard

Hours

Tuesdays and Thursdays - 5 pm - 7 pm
 Wednesdays - 9 am -12 and 12:30-5 pm.
 On the last Saturday of the month 9-12
 and by appointment.

FROM THE HEALTH OFFICER

Lyme Disease and Tick Bites

5/1/13

It is spring and the flowers, black flies and ticks are blooming! Flowers and black flies rarely cause significant health problems, but deer ticks can. They can transmit Lyme disease by transmitting Lyme bacteria when they attach to their victim. They can also transmit the rarer diseases called ehrlichiosis, babesiosis and, even more rarely, tularemia and Lyme variants, recently reported to cause a dementing illness especially in the elderly. Our region used to be on the edge of the deer tick/Lyme disease infestation area, which was the southern New England states and southern Maine. But with long term warming and less winter kill of ticks, the population has increased substantially so that it is now much more common to see tick bites and consequently increased Lyme disease incidence.

There are two common types of ticks locally, the benign common dog tick (apple seed-sized), and deer ticks, which are sometimes (not always) carriers of Lyme and other diseases. Deer ticks are half the size of dog ticks, and lack the latter's white "racing stripes" down the back. But the deer tick nymphs, more common this time of year, are as small as poppy seeds, that is until they attach to people or animals and fill with blood to 10 times that size over several days. The longer a deer tick stays on a person, the more likely they are to contract Lyme disease, if the tick is a carrier. If the tick is attached for less than 24 hours, disease rarely follows; most patients with Lyme disease have had a tick on for over a week.

The disease itself usually causes a circular (usually over 3 inches in diameter), non-tender rash, called erythema chronicum migrans, which looks like a red "ringworm" rash around a bite site or a bulls eye and follows the bite one to several weeks later. Fever in 60% of patients, aching body and joints (90⁺%), and headache (65%) also occur as the rash reaches its peak and begins to fade. If not treated, later complications involving heart, nerves, brain, and joints can occur weeks and months later. But don't be alarmed about the small mosquito bite-like red spot appearing at the site of the bite itself within a day or two; it just reflects the bite injury, not a Lyme infection.

So how can you avoid these troubles without moving to Northern Canada? First the most important thing to do is use DEET-containing bug dope to discourage their climbing on you. Secondly, you should check yourself and your children for ticks every day in the spring and summer after being outside. This can be hard in difficult places to see, like the back side of your knees or trunk. I thought I'd grown a big skin tag behind my knee for several days until I looked with a mirror and saw it was an engorged (swollen) tick. And wash, or at least heat in a dryer, clothes worn outside that may or do have ticks on them.

If you find a tick, and it's not swollen, and you are pretty sure it hasn't been on for more than a couple days, there is no need to submit it to the state lab; just remove it and your chances of developing disease are very small. Slow steady pressure to pull it off usually works. Don't try to burn it off. Use tweezers or a leatherman to pull steadily but gently for the several minutes it takes

FROM THE HEALTH OFFICER CONTINUED

to get the tick to release. Breaking the head off in the bite leaves some, though substantially less, risk of infection.

If the tick is engorged and may have been on for several days, then taking a single preventive dose of doxycycline, a prescription you can call and ask your doctor for, will reduce your chances of getting Lyme from 3% to 0.6%, if the tick was infected.

If you develop a ring rash around the bite site weeks later, or in a place where you weren't aware you'd been bitten, then you should be given a course of antibiotics for 2-3 weeks, doxycycline/tetracycline for most, amoxicillin or cefuroxime for pregnant women and children, in whom the tetracyclines are not safe. The downside of the latter alternative antibiotics is that they don't also cover the rare co-infections with ehrlichiosis and babesiosis. You will probably need to see a doctor to evaluate any such rash, but ask for an urgent appointment. The rare late complications are also treated with antibiotics after being proven due to Lyme by blood test immune titers.

So use bug dope. Check yourself and the kids. Pull ticks off before they get engorged. And get antibiotics if you develop the characteristic rash or other symptoms.

NEWS FROM THE 30 MILE RIVER WATERSHED ASSOCIATION

We are excited to kick-off summer 2013 with the continuation of successful programs such as our Youth Conservation Corps (YCC) and Courtesy Boat Inspections (CBI).

Who and what is YCC?

The Youth Conservation Corps (YCC) works with homeowners within the watershed to control erosion, and reduce sources of pollution from entering our lakes. Our 2013 YCC crew consists of new and returning members and once again will be led by Adrien Polky. YCC serve several purposes:

- ☑ Provides FREE technical assistance and labor to combat erosion and pollution on your property;

- ☑ Restores and protects your lake through preventative construction measures such as rip rap, vegetative buffers, rain gardens, infiltration trenches, and driveway work designed to improve drainage and reduce wash-outs; and
- ☑ Educates and engages young adults to become stewards of our watershed.

You may want to take advantage of the YCC if:

- You have more grass than other vegetation in your yard
 - your shoreline is eroding (you notice loss of soil, undercutting, exposed roots)
 - your driveway or path goes downhill towards the lake
 - you have soil displacement under roof drip lines
 - you have spots of bare soil in your yard
 - you want to know what you can do to improve water quality.
- We are always accepting YCC requests. In particular, we are actively seeking projects on **Parker Pond** as part of this year's grant funded project (see below). To arrange a YCC site evaluation, please visit our website at www.3omileriver.org and submit an "online project request form, found on our Youth Conservation Corps page.

Grant Awarded for work on Parker Pond

To follow-up on our 2011 watershed survey of Parker Pond, which identified 46 erosion sites, we were awarded a grant of over \$62,000 to help fund the **Parker Pond Watershed Protection Project**. This grant was provided by the U.S. EPA under Section 319 of the Clean Water Act is administered by the Maine DEP in partnership with EPA. Beginning this spring and continuing through the fall of 2014, we will be working with landowners, towns and road associations to decrease polluted runoff coming from driveways, paths and residential areas.

Who and what is CBI?

Our Courtesy Boat Inspectors are seasonal employees and generous volunteers who staff various public boat launches within the watershed. The best way to keep invasive aquatic plants out of our lakes is to prevent them from entering in the first place! CBIs provide the first line of defense by inspecting watercraft as they are launched and removed from lakes, as well as educating boaters on the serious threat of invasive plants. We are always in need of volunteer inspectors. If you like being outdoors, interacting with the public, and care about the preservation and protection of the watershed, contact us for information at info@3omileriver.org.

Mark your calendar!!

June 26, 2013 – Invasive Plant Patrol (IPP) Workshop

With the threat of invasive aquatic plants increasing in our area, the need to know what belongs and what doesn't is greater than ever. You're invited to come get your fingers wet at a "Plant Paddle" on June 26 at Camp Bearstow on Parker Pond. The workshop will consist of two parts: 1) a land-based introduction to aquatic plants, both native and invasive, and 2) an on-the-water paddle to examine what's growing in the lake. The workshop will be led by Lidie Robbins, Executive Director. Please contact us for more information.

2013 Paddle Trek!! - July 27, 2013 (rain date July 28)

Each year the 30 Mile River Watershed Association holds a 15-mile paddle trek from Mt. Vernon Village to Wayne Village, traveling through many of the lakes that form the "30 Mile River." Paddlers may join for all or part of the trek. Please visit our website in the coming weeks for up to date information.

For additional links, to sign up for our newsletter, or read about current news, visit our website at

www.30mileriver.org or contact info@30mileriver.org.
