SELECTMEN'S MINUTES JULY-AUGUST-SEPTEMBER

July 28, 2015

Present: Dodi Thompson, Chris Smith, Jeff Rackliff

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Discussed the fact that the Cell Tower lawsuit hearing (Lawless vs. Town of Vienna) which had been scheduled for July 24, was postponed due to a scheduling issue. No future date has been set at this time.
4. Selectmen signed the Winter Road Maintenance contract with Lenny Meader dba Meader Construction. This is a three year contract with a two year option.

August 4, 2015

Present: Dodi Thompson, Chris Smith, Jeff Rackliff, Marti Gross, James Meader, Susan Weeks, Marjorie Stake, Dan Goucher.

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Reviewed and signed Warrant #15 (\$69,470.71).
4. Selectmen received 5 sealed bids for tax acquired properties as follows:
 - Map 9, Lot 44 - Bid from Al Bersbach - \$500.00 – winning bid.
 - Map 2, Lot 23 - Bid from James L. Meader - \$1501.00 –winning bid.

SELECTMEN'S MINUTES CONTINUED

Map 3, Lot 45 K - Bid from David Schmid of \$7,500.00 – winning bid.

Bid from Wayne Russell of \$6,000.00

Bid from William Gibbs of \$6,075.00

Map 9, Lot 44 was awarded to Al Bersbach; Map 3, Lot 45K was awarded to David Schmid, Map 2, Lot 23 was awarded to James L. Meader. The money will be applied to the back taxes on each property and Quit Claim deeds will be issued. The checks will be returned to Mr. Russell and Mr. Gibbs.

5. Discussed roads with Dan Goucher, Road Commissioner. The Fire Department is scheduled to flush out a culvert on Tower Road on Wednesday, August 12. Discussed grinding the Bean Road for about 1 mile from the Cumner Road intersection. Also talked about the Davis Road. Two hidden driveway signs will be ordered for Stream Road.

6. The Off Road Winter Plowing will need to be put out to bid. The current contractor does not wish to take the optional year.

Rackliff, Tim & Betty Kennedy, Marti Gross

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Reviewed and signed Warrant #16 (\$18,598.92).
4. Property owner wanted to know about the combining of his two lots into one. This is town policy if two properties are contiguous, which results in one tax bill. Upon request of the property owner we will keep them as two separate parcels, with two tax bills.
5. Discussed the conditions of the Davis Road and Trask Road. There are issues on both roads and the Road Commissioner has been notified. The Trask Road has sand washing into the stream.
6. Received final payment on two of the properties that went out to bid earlier this month.
7. Signed Waste Management contract for 2015-2016 with the Norridgewock facility.
8. Reviewed a property abatement application.
9. Reviewed the Off Road Plowing contract.

August 11, 2015

Present: Dodi Thompson, Chris Smith, Jeff Rackliff

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Checks have been returned to non-winning bidders on the foreclosed properties.
4. Selectmen reviewed property cards of the properties that were sold. Name changes will be done for 2016 and Quit Claim deeds will be issued.

August 18, 2015

Present: Dodi Thompson, Chris Smith, Jeff

August 25, 2015

Present: Dodi Thompson, Chris Smith, Jeff Rackliff

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Received final payment from James Meader for the property he purchased from the town.

September 1, 2015

Present: Dodi Thompson, Jeff Rackliff, Dan Huettner, Brian Church, Troy Bean, Roger

SELECTMEN'S MINUTES CONTINUED

Reville

1. Reviewed and dispersed mail.
2. Reviewed and signed Warrant # 17 (\$20,821.20).
3. Read and accepted minutes from the previous meeting.
4. Opened bids for road side mowing. Received one bid from Don Oliver Lawn Care and Backhoe. The bid is for \$1550.00 and the job was awarded to Don Oliver.
5. Received a check for \$96.00 from MMA Workers Compensation Fund. This is because Vienna's continued record of no claims.
6. Received information for grant funds available from the Maine Forest Service. This was forwarded to Fire Chief Brian Church.
8. Talked with a resident about property appraisal and the abatement process.
9. Received a request for information about purchasing a plot at the town cemetery. Resident was referred to Cemetery Sexton Ernestine Emery.
10. Reviewed and signed the Bank Reconciliation Report.
11. Roger Reville reported that there was no street sign on Rugged Hill Road intersection. The sign is missing and needs to be replaced. He also reported that two street lights in the village were out (Pole #85/83 and #86/84) and Pole #2 by the Union Hall flickers. Dodi will contact Central Maine Power. (Note: If you notice that a street light is out, please notify a town selectman).

September 8, 2015

Present: Dodi Thompson, Chris Smith, Jeff Rackliff, Bruce Feathers

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Finalized the Off Road Plowing contract; this includes the parking lots at the Fire Station/

Community Room and the Town Office and all Dry Hydrants. Selectmen agreed to award the contract to Troy Bean. He will do the 2015-16 season at the same rate as 2014-15, with a 3% increase for each of the 2016-17 and 2017-18 seasons.

4. Discussed the annual Maine Municipal Association convention in Augusta; the 2015 convention will take place October 7th and 8th at a cost of \$75 per. It was decided that since it has been several years since any selectmen has attended, that the board would go this year. Several informative workshops are available over the two day period which would be beneficial.

5. Signed a work order for Bob Bassett Carpentry to build a new bulletin board next to the Town office. This was commissioned and approved by the Town House Committee and will replace the roadside kiosk which is in a state of disrepair.

September 15, 2015

Present: Chris Smith, Jeff Rackliff, Dan Huettner, Marti Gross, Troy Bean.

1. Reviewed and dispersed mail.
2. Read and accepted minutes from the previous meeting.
3. Reviewed and signed Warrant # 18 (\$151,605.21). This includes the 2015 County Tax of \$66,295.39.
4. Reviewed and signed the bank reconciliation.
5. Signed the three year Off Road Plowing contract with Troy Bean.
6. Received a property abatement application with supporting evidence.

NOTICE TO VIENNA RESIDENTS

Please use the following guidelines for Mailbox Installation:

Look for Postmaster General's Seal

Every new mailbox design should be reviewed and receive the Postmaster General's (PMG) seal of approval before it goes to market. If you opt to construct your own mailbox, it must meet the same standards as manufactured boxes, so show the plans to your local postmaster for approval.

Placing the Mailbox

Here are some helpful guidelines to follow when installing your mailbox:

- Position your mailbox 41" to 45" above ground level.
- Place your mailbox 6" to 8" back from the curb. If you do not have a raised curb, contact your local postmaster for guidance.
- Put your house number on the mailbox.
- If your mailbox is on a different street from your house, put your full street address on the box.

Installing the Post

The best mailbox supports are stable but bend or fall away if a car hits them. The Federal Highway Administration recommends:

- A 4" x 4" wooden support or a 2"-diameter standard steel or aluminum pipe.
- Avoid unyielding and potentially dangerous supports, like heavy metal pipes, concrete posts, and farm equipment (e.g., milk cans filled with concrete).
- Bury your post no more than 24" deep.

FROM THE TOWN CLERK

Annie Tibbetts: 207-293-2915
 email: ClerkTax@Viennamaine.org
 346 Town House Rd. Vienna, Maine

Hours

Tuesdays and Thursdays - 5 pm - 7 pm
 Wednesdays - 9 am -12 and 12:30-5 pm.
 On the last Saturday of the month 9-12
 and by appointment.

Dog registration tags are available for 2016 after October 15. Unaltered dogs are \$11 and Altered dogs are \$6.

I will be closed on November 26 for Thanksgiving.
 Hope everyone had a great summer.

Respectfully Submitted,
 Annie Tibbetts

PLANNING BOARD NEWS

MINUTES OF THE REGULAR MEETING OF THE VIENNA PLANNING BOARD HELD JULY 22, 2015

The meeting convened at the Town House at 7:00 PM. Regular members present were Waine Whittier, Alan Williams, Ed Lawless, and Creston Gaither. Also present were John, Peter, and Debbie Sebelius. Minutes of the June 24 meeting were read and accepted.

The Sebeliuses outlined the problems they have configuring their Parker Pond property (tax map 11 lots 71 & 45) so that the southerly parcel (lot 45) could be buildable within the shoreland zone. Creston recused himself from the Board during this discussion. He presented his 2012 & 2015 survey maps of the properties. The Board addressed the problem created by the 200 foot width requirement found in Section 15.A.(4). of the Shoreland Zoning Ordinance (SZO), which parcel 'B,' the more southerly of the two, appears not to meet. The Board reviewed the said survey maps and pertinent sections of The SZO at length. It was noted that the shed shown on the plans near the pond on parcel 'A' is a pumphouse and thus is an accessory to an allowed use, the cottage on lot 'A.'

Alan suggested that part of lot 'A' could be considered an individual private campsite as per SZO provisions found in Section 15.E.

Waine suggested that the Board first determine whether the 2012 division of the original or "parent" parcel into parcels 'A' and 'B' was a legal division, in light of the provisions of Section 11 of the SZO.

Alan formally moved that the Board find that the 2012 division created 2 legal lots, parcel 'A' being "buildable" within the shoreland zone

(the area within 250' from the pond), and 'B' being permissible within the shoreland zone as a private individual campsite under the aforesaid Sect. 15.E. The Board voted 3 - 0 to approve this motion.

The Board then discussed parcel 'A'. It was agreed that the aforesaid shed near the pond is non-conforming. It is believed to date from the 1950's. Waine then suggested that the shed can remain in place but that parcel 'A' could be reconfigured to be limited to being considered a campsite within the shoreland zone. It was noted that the shed is probably not eligible for expansion as it is barely 25 feet from the pond.

Alan then moved that The Board find that reconfiguration of parcel 'B' to make it "buildable" within the shoreland zone (somewhat as per the aforesaid 2015 survey plan) and to thus make 'A' a private individual campsite within the shoreland zone (this being the reverse of the current situation according to the Board's earlier consensus) would be permissible. The Board voted 3 - 0 to approve this motion.

Waine noted that in making these findings The Board is merely interpreting the SZO and not changing it.

The Sebeliuses were advised that a SZO permit would be required for any particular construction project within the shoreland zone.

Alan moved that Creston, as Secretary of the Board, be authorized to send the Sebeliuses a letter outlining these actions. This motion was approved 3 - 0.

PLANNING BOARD NEWS - CONTINUED

Austin Harrell has e-mailed the Board stating that he has sent a formal letter of resignation from the Board to the Selectmen.

The meeting adjourned at 8:20 PM.
Creston Gaither, secretary

**MINUTES OF THE REGULAR MEETING
OF THE VIENNA PLANNING BOARD
HELD AUGUST 26, 2015**

The meeting convened at the Town House at 7:00 PM. Regular members present were Waine Whittier, Alan Williams, and Creston Gaither; also present were contractor Neal Schultz and landowners Kim and Betty Kennedy. Minutes of the July 22 meeting were read, and it was agreed that some edits may be needed and that the Board will reconsider said minutes at its next meeting.

Prior to the meeting Waine and Alan visited both of the sites Neal Schultz wishes to discuss; Creston has previously been to both. The Board first considered Neal's proposal regarding the Schulzes' Parker Pond property shown on tax map 11 as lot 43-P. The applicants would like to remove two existing sheds or garages, one of which is less than 100 feet, and more than 75 feet, from the pond. The second is more than 100 feet from the pond. It is believed that the existing cottage has more than 1500 sf of floor space less than 75 feet from the the pond. The garage less than 100 feet from the pond is 12' x 24'.

The Board reviewed the Shoreland Zoning Ordinance (SZO) Sect. 12.C. (3). Neal has not calculated how many sf of the new structure would be less than 100' from the pond. It was noted that the proposed construction area is somewhat flat and clear.

Based on Neal's sketch and verbal representations, The Board determined that the project as outlined above:

- (1) Will maintain safe and healthful conditions;
- (2) Will not result in water pollution, erosion, or sedimentation to surface waters;
- (3) Will adequately provide for the disposal of all wastewater;
- (4) Will not have an adverse impact on spawning grounds, fish, aquatic life, bird or other wildlife habitat;
- (5) Will conserve shore cover and visual, as well as actual, points of access to inland waters;
- (6) Will protect archaeological and historic resources as designated in the comprehensive plan;
- (7) Will avoid problems associated with floodplain development and use; and
- (8) Is in conformance with the provisions of Section 15, Land Use Standards.

It was moved that the Board approve a new 24' x 28' 2-story garage & recreation building on a slab with some portion closer than 100' from the pond. Alan noted that both floors will count toward the total square footage within the 100' setback. However, the total sf closer than 100 from the pond shall be less than what is found with the existing non-conforming garage, which shall be removed. The new building shall be as far away from the pond as is practical without infringing on steep slopes or requiring the removal of additional trees. It was voted 3 - 0 to authorize Creston to issue the usual permit by letter for this work, provided that Neal provides written confirmation that the existing subsurface wastewater disposal

PLANNING BOARD NEWS - CONTINUED

permit is sufficient, and written confirmation that he is authorized to act as the landowners' agent. The permit shall state as conditions of approval that a silt fence will be installed and maintained during construction; and that a stone apron will be installed beneath drip edges.

Neal also appeared regarding the Kirchner property on Flying Pond depicted on tax map 10 as lot 00- VA. The applicants would like him to build a 20' x 24' bunkhouse with a toilet and sink on pads and posts, to be more than 100' from the pond. But just 9' from the parcel sideline. They will get an easement to allow for this proximity to the sideline as per the recent change to the SZO.

Based on Neal's sketch and verbal representations, The Board determined that the project as outlined above:

- (1) Will maintain safe and healthful conditions;
- (2) Will not result in water pollution, erosion, or sedimentation to surface waters;
- (3) Will adequately provide for the disposal of all wastewater;
- (4) Will not have an adverse impact on spawning grounds, fish, aquatic life, bird or other wildlife habitat;
- (5) Will conserve shore cover and visual, as well as actual, points of access to inland waters;
- (6) Will protect archaeological and historic resources as designated in the comprehensive plan;
- (7) Will avoid problems associated with floodplain development and use; and

- (8) Is in conformance with the provisions of Section 15, Land Use Standards.

It was moved that Creston be authorized to issue the usual permit by letter for this project on receipt of proof of the easement and of authorization from the Kirchners that Neal is authorized to act as their agent, the permit to include the usual condition regarding silt fencing etc. The Board voted 3 - 0 to authorize the permit.

The Kennedys appeared regarding their Kimball Pond property, shown on tax map 3 as lot 30. They sold contiguous land in New Sharon in 2004. The Board discussed the question of whether the remaining parcel constitutes a "lot of record" as per the SZO Sect. 12. E. (1). even though it comprises 2 parcels that had previously been separately owned and mapped. Waine will contact MMA in this regard. The lots are shown on a 1984 survey map made for one Elizabeth Knight. Creston will try to get a copy of this plan from Acme Land Surveying in Farmington.

Creston will ask CEO John Archard whether he's given a permit to the occupant of a shed near Quail Hollow.

The meeting adjourned at 8:15 PM.

Creston Gaither, secretary

EDITOR'S NOTES

Send us your photos of Vienna!!

If you would like to see your photographs of Vienna, Maine published in *The Record* please email them to me as a .jpeg. Send them to: viennarecord@gmail.com

I may not be able to include all the photos sent but will determine what fits and what works!

Thanks for your help.

FROM THE HEALTH OFFICER

WATER, GEESE AND MANKIND

By Dan Onion, MD, MPH
Mt. Vernon/Vienna Health Officer
293-2076; dkonion@gmail.com
September, 2015

Every summer I test the Vienna Flying Pond boat launch and the Mt. Vernon beach by the community center on Minnehonk for E. coli, a bacterium, which in higher concentrations, indicates fecal (poop) contamination of the water. I report here on my on-going monitoring and what it means.

I've tested the Flying Pond for the past 5 years. All were normal until last year, when the first test showed unacceptable levels of E. coli. On code enforcement officer John Archard's advice, I looked for sources of sewage runoff and found none. Nor was he aware of any. A second set of tests a week later were negative. I concluded the initial test may have been due to recent rains and dog feces on the beach/launch area. This year the test was again negative.

The Mt. Vernon beach has tested negative every year for the past 3 or 4; but this year, in the latter half of July, it showed 548 E. coli/cc of lake water by the beach dock. The Environmental Protection Agency has established upper "acceptable" limit at 235/cc, above which in fresh water, more than

FROM THE HEALTH OFFICER CONTINUED

36/1000 people swimming in the water will get sick. Just to illustrate how these “acceptable limits” or “action values” (for closing beaches) work, contrast that if we closed fresh water beaches when E. coli levels exceeded only 190/cc, then one could expect only 32 rather than 36/1000 cases of illness from swimming in that water. Everything in medicine is relative; there is no magic, abrupt cut-off. And these illnesses that do occur are usually relatively benign gastrointestinal conditions; but occasionally hepatitis A occurs and can be a bit more serious than those.

So, especially with the on-going children’s swimming program, I worked quickly with the Mt Vernon town code enforcement officer, Richard Marble, and Tricia Jackson, the town swimming program coordinator to find a source and make sure people were safe. My first suspicion was a septic system leak into the lake, but I also realized that a heavy rain can sometimes cause short spikes in contamination, as I’d seen at the boat launch/swim site on Flying Pond last year. And I had tested Mt Vernon 2 days after a storm. I also wondered if an incontinent, even diapered, infant in the beach water, one of whom I had met, could have caused the contamination transiently. A repeat test both at the beach and a couple hundred yards toward the town center, were only 19 and 5/cc. Very encouraging!

However, a week later, while at the swim lessons with my granddaughter, I noticed 10s if not 100s of goose droppings right up to the beach edge. Kids and adults were stepping in it and cringing. So, I thought, maybe that’s were the E. coli is coming from, since all animals, at least vertebrates, have huge quantities of E. coli in their guts. I noticed that there were no goose droppings in the plantings between the brook and the beach. Those had been planted there a couple years ago to help stabilize the beach erosion by the brook and to make the area less goose-friendly. Geese are a perennial problem around our lakes in the summer since they are water birds, who prefer to graze fresh new grass on shore. The beach area is kept closely mowed, with resulting tender new grass constantly growing up continuously. Geese also like to be able to escape quickly from dogs, people and other predators by taking off towards the water. Obstructions to that escape route discourage them from using an area, as they seem to have been discouraged from using the area around the recently planted bushes.

Geese and their droppings seemed to have gone away over the subsequent 2-3 weeks, so maybe it was a transient flock that caused the transient contamination. A final, 3rd set of beach water tests were quite good at only 6 E. coli/cc of water.

Maybe it wasn’t the geese. But geese are increasingly numerous, as dawn

flights over my home from May to October suggest, and create a bothersome problem around our lakes. Control measures, like the shotgun patrols I was involved in to diminish jet/bird collisions at Logan Airport in the past, are now illegal and socially unacceptable to many. Mowed lawns with new blades of grass next to our lakes are a great attractant, exceeded only by harvested grain and cornfields. The geese will much prefer lawns with open flight paths over the water for escape routes. So to minimize their bother and keep them at a respectful distance, all of us should keep our lawns at least 10-20 feet from the water edge, allowing local plants or planted bushes to grow 1-3 ft high next to our shores. Their deeper roots also diminish erosion and phosphate runoff, which can induce summer algae blooms; and their height discourages the geese. One can still have paths through the bush fences for us to access the waterfront, if we wish. We should mow even these lawns less frequently, and certainly not fertilize them, no matter how far back from the lake, so they are neither geese magnets nor phosphate polluters of our lakes.

Happy swimming during the last days of the summer, but avoid sharing your favorite spot with geese.

The Fall Harvest is here and Halloween is just around the corner... Be safe out there..

Maine general dates for the 2015 Hunting Seasons can be found at:

http://www.maine.gov/ifw/hunting_trapping/pdfs/2015HuntingSeasonsChart.pdf

DR. SHAW MEMORIAL LIBRARY NEWS - OCTOBER 2015

“Ben wished the world was organized by the Dewey decimal system. That way you’d be able to find whatever you were looking for.”

.....Brian Selznick, from Wonderstruck

We are starting our annual CAN DUE program (forgiveness regarding overdues combined with canned goods collection) this month. Remember that if you bring in some items for us to donate to the Mt. Vernon Food Bank, all of your guilt about overdue library materials this past year will magically disappear. Bring us some canned or boxed goods (large cans of soup are great – winter’s coming!) or personal care items. We’ll get them to the Food Bank.

Most of our picture books about apples have been out constantly since early September. Now we are displaying some of our pumpkin, Halloween, and autumn books on the table in the children’s room. I’m sure they will prove to be as popular as the apple books!

Also among the picture books, we have a nice collection from Raising Readers, a project of the Libra Foundation here in Maine. Each book is a collection of stories to share with your young children, from many different Maine authors (Chris Van Dusen and Robert McCloskey, for example). You might have seen some of these at your pediatrician’s office, too, since the member organizations of this project want to get these into the hands of all Maine youngsters and are distributing them far and wide. Our books are shelved together, with the spine label marked PB RAI. Keep these in mind for family reading time this winter.

Some websites we’ve been looking at lately, which you might find helpful, or just plain fun: www.familysearch.org is a site that lets you search for family & geneology information, but also lets you create your own family tree or chart, and add photos, to share with others.

www.mpbnet.net Their education resources are varied & extensive. Along the top tab bar, hover over the “Education” tab, and then click on PBS Learning Media/STEM Resource Bank; Adults; Parents and Families; Educators: or Kids.

www.zooniverse.org A website of scientific discovery where the public can participate in research and information sharing in various sciences (astronomy, zoology, biology, wildlife & habitat, etc).

www.yummy-books.com Cara Nicoletti’s blog about making the recipes she finds in literature (from Roald Dahl to Jane Austen to Anthony Doerr). Light-hearted, with some book-talk, and great (sometimes amusing) recipes. She has a book out now, too, called Voracious. In the past few months I’ve been enjoying a lot of fiction set in small towns. Many of our patrons have, too, and we’ve been swapping titles back and forth. We like these stories

because the setting feels comfortable & familiar, of course; but also we are drawn to the very quirky characters, with all of their flaws and their own complicated backstories. These are books about imperfect people living in challenging but beloved places. Pretty soon we'll put a partial list of small town fiction on the white board in the main room -- please feel free to add to it! Meanwhile, here are a few titles to get you started:

*Midnight Plan of the Repo Man by Bruce W. Cameron

*Cold Storage, Alaska by John Straley

*Lots of Maine writers like Sarah Graves, Elizabeth Ogilvie, Cathie Pelletier, and Gerry Boyle

*Louise Penny's popular mysteries (Canada)
*Susan Wittig Albert's mysteries that feature medicinal herbs

*The Jesus Cow by Michael Perry (it will be in our collection soon, I've almost convinced various family members to part with it)

*The Readers of Broken Wheel Recommend by Katarina Bivald (ditto, re our family letting it out of the house)

I just finished that last novel, The Readers of Broken Wheel, a wonderful story. What are you reading in between putting up applesauce and filling the woodbox?

RECURRING COMMUNITY EVENTS

Mt. Vernon Community Center Café - Saturdays From 9:30-11:30 AM. Coffee, food and Conversation.

PlayGroup - Mt Vernon Community Center - Tuesdays 9:30-11:00AM - 6 mo-5 year

Men's Breakfast - Tuesdays from 6:30-7:30 at the Mt. Vernon Community Center. Small donation appreciated.

Women's Breakfast "JULIET" - Third Tuesday of each month at the Mill Stream Grange 8-9 AM. Pot luck breakfast plus \$2.00 per person.

McGaffey Mountain Woodcarvers - 1st and 3rd Wednesday of each Month from 6:00-8:30 PM at the Vienna Community Center. New and experienced carvers welcome. For more information call Norma Wing at 293-3725 or Ed Beach at 685-4779.

Creation Station - Faith-based, arts-based after school program of the North Vienna UMC. Meets Thursday during the school year. Open to all children grades K-6. For more information call Laura Church at 293-3892.

The Youth Group at North Vienna United Methodist Church - Most Sunday afternoons during the school year. Open to youth grades 6 and up. For more information call Laura Church 293-3892.

Vienna Union Hall Association - Second Wednesday of each month. 7:00 at the Vienna Community Center (Nov.- March.) at the Union Hall (April - Oct.) Welcome new members.
